SUBJECT INDEX

Volumes 67-70, 1987

1. ASYMPTOTIC TECHNIQUES

- Observations on the Combustion of Boron Slurry Droplets in Air, 67, 1
- The Burning of Graphite Spheres with Gas-Phase Equilibrium, 67, 37
- Hydrodynamic and Diffusion Effects on the Stability of Spherically Expanding Flames, 67, 77
- Influences of Two-Phase Flow in the Deflagration of Homogeneous Solids, 67, 249
- Book Review of "Combustion Theory" by Forman A. Williams, 67, 273
- Effect of Variable Heat Loss Intensities on the Dynamics of a Premixed Flame Front, 68, 69
- The Asymptotic Structure of Stoichiometric Methane-Air Flames, 68, 185
- Stretch Effects and Solid Propellant Burning, 69, 263
- Thermal Explosion Theory for a Slab with Partial Insulation: A Correction to $\delta_c(\epsilon)$, 69, 367
- Premixed Flames with Nonbranching Chain-Reactions (Structure and Dynamics), 70, 137

2. COMBUSTION IN PRACTICAL SYSTEMS

- Observations on the Combustion of Boron Slurry Droplets in Air, 67, 1
- Particle Size Dependence of Coal Char Reactivity, 68, 81
- Book Review of "Principles of Turbulent Fired Heat" by G. Monnot, et al., 68, 89
- Combustion in Crater Beds, 68, 155
- Combustion Following Turbulent Mixing in Muzzle Flows, 68, 167
- Two-Dimensional Visualization of Ignition Kernels in an IC Engine, 69, 59
- Numerical Simulation of Particle Size Distribution Evolution During Pulverized Coal Combustion, 69, 193
- Predicting Devolatilization at Typical Coal Combustion Conditions with the Distributed-Energy Chain Model, 69, 221
- Light Scattering by Fly Ash and the Applicability of Mie Theory, 69, 235

- Bed Carbon Loadings in Fluid Bed Combustion, 69, 243
- Book Review of "Fuels and Combustion" by S. P. Sharma and Chander Mohan, 69, 249
- Non-LTE Thermodynamic Properties for Combustion Processes, 69, 317
- Formation of N_2O in Laminar, Premixed, Fuel-Rich Flames, 70, 119
- The Mechanism of Char Ignition in Fluidized Bed Combustors, 70, 191
- Evaluation of Gaseous and Particulate Emission Characteristics of a Single Cylinder Diesel Engine, 70, 215
- Book review of "Flame and Combustion, Second Edition" by J. A. Barnard and J. N. Bradley, 70, 251
- A Study on Devolatilization of Large Coal Particles, 70, 253
- Group Combustion of Char/Carbon Particles, 70, 307
- Aerothermochemical Studies of Energetic Liquid Materials: 1. Combustion of Han-Based Liquid Gun Propellants (under Atmospheric Pressure), 70, 333

3. COMBUSTION STABILITY/INSTABILITY

- Hydrodynamic and Diffusion Effects on the Stability of Spherically Expanding Flames, 67, 77
- Relation Between Cell Size and Detonation Parameters in Overdriven Gaseous Detonations, 67, 95
- Influences of Two-Phase Flow in the Deflagration of Homogeneous Solids, 67, 249
- Effect of Variable Heat Loss Intensities on the Dynamics of a Premixed Flame Front, 68, 69
- Oscillations in Confined Disk-Stabilized Flames, 68, 121
